TIRE PRESSURE GAUGE HOSE

14 in Long · Relief · QuickCar Tire Gauges

PART NUMBER
QRP56-001

OVERVIEW

A tire gauge hose takes more abuse than the gauge does, and a leaking one makes every reading suspect. This is the finished replacement assembly rather than a length of hose and loose fittings. The 14 Inch hose carries a 45 Degree chuck on one end and a 1/4 Inch NPT female gauge port on the other, with a relief button built into the gauge port.

Sold each.
