GAUGE PANEL ASSEMBLY

Redline · Oil Pressure / Water Temperature / Recall Tachometer · 2-5/8 in Diameter · Black Face

PART NUMBER
QRP69-2231

OVERVIEW

QuickCar Analog Gauge Panel Assemblies provide racers with a clear, dependable way to monitor critical engine and vehicle conditions without assembling an instrument panel one component at a time. Easy-to-read analog gauges give drivers immediate visual feedback, making it simple to recognize changing pressures, temperatures, engine speed, and other vital operating conditions at a glance. Integrated warning lights provide an additional visual alert when monitored conditions require attention, helping the driver identify potential problems quickly during competition.

Preassembled panels combine compatible gauges, wiring, sending components, and mounting provisions into an organized installation that reduces fabrication work and simplifies race car wiring. Built for the focused, functional environment of a competition vehicle, QuickCar Analog Gauge Panel Assemblies put essential information directly in front of the driver while providing a clean, professional foundation for the vehicle's instrumentation system.
