TIRE PRESSURE GAUGE

0-40 psi · Analog · 2-1/2 in Diameter · Liquid Filled · White Face · 1 lb Increments

PART NUMBER
QRP56-041

OVERVIEW

Tire pressure decides how the car turns, and a gauge that reads a half pound off will chase a crew all night. QuickCar Tire Gauges pair a large 2-1/2 Inch face with a 14 Inch hose, 45 Degree swivel chuck, relief valve, and hose strain reliefs, so pressures are set accurately and bled precisely without wrestling the wheel. A shock resistant boot protects the movement from the drops that eventually happen.

Liquid filled face, reading 0-40 PSI in 1 pound increments.

SPECIFICATIONS

Application	**Tire Pressure**
