BRAKE SWITCH WIRING HARNESS

Electric 3 Wheel Brake Switch

PART NUMBER
QRP50-034

OVERVIEW

QuickCar 3-Wheel Brake Switch Wiring Harness provides the electrical connection needed to integrate an electric 3-wheel brake switch and solenoid into a competition vehicle's braking system. Designed as a direct fit for QuickCar's 3-wheel brake panel, the harness simplifies installation by providing the wiring and connections needed to deliver power from the switch to the brake solenoid. WeatherPack connectors help protect critical electrical connections from dirt and moisture, while professionally terminated wire ends provide secure connections throughout the circuit.

Designed for dirt racing applications using a 3-wheel brake system, this purpose-built harness helps create a clean, reliable installation without requiring the necessary wiring and connectors to be assembled from scratch.

SPECIFICATIONS

Sold As	**Each**

SHIPPING & PACKAGING

Package	**7.15 × 6.2 × 0.95 in**
Ship Weight	**0.12 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
