SOLENOID JUMPER WIRE

Remote · Ring Connector · Bert / Brinn Starters

PART NUMBER
QRP50-2002

OVERVIEW

A remote solenoid needs a clean, correctly terminated feed to the starter, and a shop-built jumper with mismatched ends is a common source of hard starting. QuickCar Starter Jumper Wires arrive finished with the correct terminals on both ends so the connection is right the first time. This version connects a #10 ring terminal to a 5/16 Inch ring, fitting Bert and Brinn style starters that use a ring terminal.

SPECIFICATIONS

Terminal Style	**Ring**
Sold As	**Each**

SHIPPING & PACKAGING

Package	**7 × 4 × 0.3 in**
Ship Weight	**0.05 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
