IGNITION WIRING HARNESS

Weatherpack Style · Switch Panel Included · 2 Toggles / 1 Momentary Push Button · Black Face · UMP / IMCA Style Modifieds

PART NUMBER
QRP50-2037

OVERVIEW

QuickCar Distributor Wiring Adapter provides a convenient way to connect a Crane or FAST distributor to a vehicle equipped with a WeatherPack-style distributor connection. Designed to accommodate distributors requiring an additional 12-volt power connection, the adapter eliminates the need to modify or rebuild the existing ignition harness when changing distributor configurations. Weather-resistant connectors with professionally crimped and soldered terminals help provide dependable electrical connections, while included power and ground leads simplify installation.

Designed for compatibility with most QuickCar Professional Performance Harnesses, this purpose-built adapter provides a clean, serviceable solution for integrating compatible Crane and FAST distributors into an existing racing ignition system.

Note: For Northeast Mod Wiring Harness: See part number 50-2038.

SPECIFICATIONS

Face Color	**Black**
Sold As	**Each**

SHIPPING & PACKAGING

Package	**7.35 × 6.7 × 6.3 in**
