IGNITIONS AND ELECTRICAL › WIRING HARNESSES › IGNITION WIRING HARNESSES

WIRING HARNESS ADAPTER

MSD Magnetic Pickup to 2 Pin Weatherpack

PART NUMBER
QRP50-207

OVERVIEW

Mixing ignition brands usually means cutting a connector off something expensive. QuickCar Wiring Adapters bridge the two standards instead, so the distributor and the harness plug together without splicing and either part can be swapped out later. This adapter mates an MSD standard distributor connector to a QuickCar wiring harness and arrives with pins already crimped, soldered, and seated in the correct connector.

Align the wire colors to the harness on installation so ignition timing is correct.

Note: Make sure to align wire colors on the adapter to your wiring harness to make sure your timing is correct.

SPECIFICATIONS

Pins	**2 Pins**
Sold As	**Each**

SHIPPING & PACKAGING

Package	**6.45 × 3.05 × 0.75 in**
Ship Weight	**0.03 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
