TERMINAL PIN

Weather Pack · 17-14 Gauge Wire · Male · Tin Plated Copper · Set of 20

PART NUMBER
QRP50-301-20

OVERVIEW

Weatherpack connectors are only as good as the terminals crimped into them. These QuickCar pins are the correct factory style terminal for GM Weatherpack housings, giving a watertight, corrosion resistant connection that holds up to vibration and washdown. These are male Weatherpack pins, tin coated for corrosion resistance and sold in packs of 20.
