ELECTRICAL CONNECTOR

Weather Pack Sealed Connector · 2 Pin · Plastic · Black

PART NUMBER
QRP50-322

OVERVIEW

Electrical Connector - Weather Pack Sealed ConnectorQuickCar Weather Pack Sealed Connectors provide a secure, weather-resistant solution for joining electrical circuits in racing, performance, and custom vehicle wiring systems. Sealed construction helps protect electrical connections from moisture, dirt, and other contaminants that can lead to corrosion, intermittent connections, and electrical problems over time. The positive connection keeps wiring securely joined in demanding environments while still allowing components to be disconnected for service, replacement, or troubleshooting without cutting into the harness.

Ideal for ignition systems, lighting, fans, pumps, switches, sensors, and other electrical accessories, QuickCar Weather Pack Connectors help builders create cleaner, more organized wiring systems with dependable connections designed for the harsh conditions found in and around a race vehicle.
