TOOLS › HAND AND OTHER TOOLS › WIRE CRIMPERS AND STRIPPING TOOLS

WIRE CRIMPING TOOL

Ratcheting Mechanism · Quick Change Jaws · Cushion Grip · Steel · Black Oxide

PART NUMBER
QRP50-395

OVERVIEW

A crimp is either gas-tight or it is a future failure, and hand pliers rarely deliver the first one consistently. A ratcheting crimper will not release until the crimp is complete, which takes operator judgement out of the equation. A quick-change jaw design swaps dies without tools, covering insulated, non-insulated, Weatherpack, small gauge, and spark plug terminals.

Crimping pressure is adjustable and a carrying case is included.

SPECIFICATIONS

Sold As	**Each**

SHIPPING & PACKAGING

Package	**13 × 9.45 × 2.5 in**
Ship Weight	**2.51 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
