GATOR CLAMPS

30 amps Maximum · 16 to 8 Gauge Wire · Rubber Coated · Black / Red

PART NUMBER
QRP50-435

OVERVIEW

Battery chargers, remote starters, and jump leads all live or die by their clamps, and the cheap ones lose spring tension fast. These heavy-duty gator clamps are the repair or upgrade part for any of them. A high tension internal spring delivers strong clamping force, with 30 Amp capacity accepting 16 to 8 gauge wire.

Sold in pairs, one red and one black, rubber coated.

SPECIFICATIONS

Color	**Black / Red**
Gauge	**16-8 Gauge**
Amps	**30 Amps**
Material	**Rubber**
Sold As	**Pair**
