TOGGLE SWITCH

Heavy Duty · On / Off · Weatherproof Cover · Single Pole · 25 amps · 12V

PART NUMBER
QRP50-522

OVERVIEW

QuickCar Toggle Switches provide reliable, easy-to-operate control of electrical functions in racing, performance, and custom vehicle applications. Designed for straightforward dash or switch-panel installation, these compact switches give drivers convenient control of ignition, starting, accessories, electric motors, and other vehicle circuits depending on the switch configuration. Durable construction and available internally sealed, weather-resistant designs help maintain dependable operation in environments exposed to vibration, dirt, moisture, and the demanding conditions found in competition vehicles.

Positive toggle action provides clear physical feedback when operating a circuit, making controls easy to locate and use without unnecessary complexity. Ideal for building custom switch panels, replacing worn controls, or adding new electrical functions, QuickCar Toggle Switches provide a simple, dependable interface between the driver and the vehicle's electrical system.

SPECIFICATIONS

Style	**Toggle Switch / Single Pole**
Amps	**25 Amps**
Volts	**12V**
Sold As	**Kit**

SHIPPING & PACKAGING

Package	**4.45 × 3.55 × 0.75 in**
Ship Weight	**0.09 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
