WARNING LIGHT

LED · 12V · 1/2 in Diameter · Amber · Quickcar Switch Panels

PART NUMBER
QRP50-604

OVERVIEW

QuickCar LED Indicator Lights provide an immediate visual indication of electrical circuit or accessory status, making it easy for the driver or crew to confirm when a controlled function is active. Commonly mounted near switches on dashboards and switch panels, the illuminated indicator provides clear visual feedback that the associated circuit has been switched on. Compact construction allows the light to integrate cleanly into custom control panels and instrumentation layouts, while LED illumination provides a bright, easily recognized status signal.

Ideal for new switch panels, custom electrical systems, or replacement applications, QuickCar LED Indicator Lights provide a simple, effective way to make vehicle electrical functions easier to identify and monitor.

SPECIFICATIONS

Color	**Amber**
Diameter	**1/2 Inch**
Volts	**12V**
Sold As	**Each**

SHIPPING & PACKAGING

Package	**5.6 × 3.1 × 0.85 in**
Ship Weight	**0.03 lb**
Country of Origin	**USA**
Vehicle Type	**Car**

ALSO AVAILABLE IN THIS FAMILY (4 PART NUMBERS)

PART #	COLOR	SHIP WT.
QRP50-601	Red	0.03 lb
