IGNITION WIRING HARNESS

Weatherpack · MSD 7AL Plus-2

PART NUMBER
QRP50-7222

OVERVIEW

A 7AL-2 Plus box uses its own connector, which is a problem for any harness built around Weatherpack. This adapter bridges the two without cutting either one. It adapts the wiring connector of the popular 7AL-2 Plus ignition to a 6-pin Weatherpack connector.

SPECIFICATIONS

Terminal Style	**Weatherpack**
Sold As	**Kit**

SHIPPING & PACKAGING
