SWITCH PANEL

Extreme · Dash Mount · 3.25 × 4.5 in · 5 Toggles / 1 Momentary Toggle · Black

PART NUMBER
QRP50-7631

OVERVIEW

QuickCar Dash Mount Switch Panels provide racers with a clean, organized control center for operating essential vehicle electrical systems from within easy reach of the driver. By bringing ignition, starting, accessories, and other race functions together in a purpose-built panel, they eliminate the need to individually mount and organize separate switches throughout the dash. Preassembled construction simplifies installation and helps create a cleaner, more professional wiring system, while durable switches are designed to withstand the vibration and demanding environment of competition vehicles.

Clearly arranged controls make important functions easier to locate and operate quickly, helping drivers and crew interact with the vehicle without unnecessary searching or confusion. Ideal for new race car builds, rewiring projects, and electrical system updates, QuickCar Dash Mount Switch Panels provide a convenient foundation for creating an organized, accessible, and dependable driver control system.
