FUSE TERMINAL

Waterproof · In-Line · Plastic · Black · ATC Fuses

PART NUMBER
QRP50-955

OVERVIEW

One shorted wire can take out an expensive box, and an in-line fuse is the cheapest thing standing between the two. Installing one in a power lead is a few minutes of work. This in-line ATC fuse holder ships with one each of 5, 10, 15, 20, 25, and 30 amp fuses, so the circuit can be protected at the right rating straight out of the packet.

SPECIFICATIONS

Color	**Black**
Terminal Style	**Fuse**
Sold As	**Kit**

SHIPPING & PACKAGING

Package	**6.05 × 3 × 0.85 in**
Ship Weight	**0.08 lb**
