CHASSIS SETUP CHART

50 Sheet in Pad

PART NUMBER
QRP51-201

OVERVIEW

Setups that are not written down get rebuilt from memory, and memory is the first thing to go after a long night at the track. QuickCar note pads give the crew a consistent place to record what was done and what it produced, so a good run can be repeated and a bad one diagnosed. Each pad holds fifty sheets.

The Chassis Set-Up pad records current chassis settings. Fill one out each time a change is made and file them together, and the season becomes a reference instead of a guess.

SPECIFICATIONS

Sold As	**Kit**

SHIPPING & PACKAGING

Package	**11.85 × 10 × 0.05 in**
Ship Weight	**0.7 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
