TIRE SETUP CHART

After Race · 50 Sheet in a Pad

PART NUMBER
QRP51-215

OVERVIEW

Setups that are not written down get rebuilt from memory, and memory is the first thing to go after a long night at the track. QuickCar note pads give the crew a consistent place to record what was done and what it produced, so a good run can be repeated and a bad one diagnosed. Each pad holds fifty sheets.

The After Race Tire Results pad records tire condition once the car comes off the track, which is where the setup actually shows its work.

SPECIFICATIONS

Sold As	**Kit**

SHIPPING & PACKAGING

Package	**11.8 × 9.95 × 0.45 in**
Ship Weight	**0.7 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
