LAP TIMING AND RACE SCORING CHART

50 Sheet in Pad

PART NUMBER
QRP51-230

OVERVIEW

Setups that are not written down get rebuilt from memory, and memory is the first thing to go after a long night at the track. QuickCar note pads give the crew a consistent place to record what was done and what it produced, so a good run can be repeated and a bad one diagnosed. Each pad holds fifty sheets.

The 50 Lap timing pad gives the crew chief or scorer a line for every lap, for practice sessions and races alike.
