OVERVIEW

Setups that are not written down get rebuilt from memory, and memory is the first thing to go after a long night at the track. QuickCar note pads give the crew a consistent place to record what was done and what it produced, so a good run can be repeated and a bad one diagnosed. Each pad holds fifty sheets.

The Race Day Check List pad walks the crew through the items commonly missed before leaving for the track.

SPECIFICATIONS

Sold As	**Kit**

SHIPPING & PACKAGING

Package	**11.7 × 9.95 × 0.4 in**
Ship Weight	**0.7 lb**
