ROCKER SWITCH

Momentary · 12V · Plastic · Black

PART NUMBER
QRP52-402

OVERVIEW

QuickCar Rocker Switches give a driver a large, positive actuator that is easy to find and easy to throw with gloves on, which is exactly what a switch panel needs when there is no time to look down. Sold individually. A momentary-off-momentary action, typically used for winch control, with red lights that illuminate when the switch is activated.
