BATTERY DISCONNECT

Rotary Switch · Panel Mount · 250 Amps · 12V · Alternator Posts · Aluminum On / Off Panel
· Silver

PART NUMBER

QRP55-023

OVERVIEW

QuickCar Rotary Battery Disconnect Switches provide a fast, positive way to isolate battery power for enhanced safety, emergency shutdown, vehicle service, and storage. The easy-to-operate rotary design allows electrical power to be disconnected with a deliberate turn of the handle, giving drivers, crew members, and safety personnel a clearly identifiable means of shutting down the vehicle's electrical system when needed. In addition to meeting the battery disconnect requirements of many racing sanctioning bodies, a master disconnect helps reduce electrical hazards during maintenance and provides a convenient way to isolate the battery when the vehicle is not in use.

Designed for racing, performance, and competition electrical systems, QuickCar Rotary Battery Disconnect Switches provide a simple, dependable point of control between the battery and the vehicle's electrical system.

SPECIFICATIONS

Color	Silver
Style	Rotary Switch
Amps	250 Amps
Volts	12V
Location	Panel Mount
Sold As	Kit

SHIPPING & PACKAGING

Package	5.8 × 5.5 × 5.2 in
Ship Weight	1.32 lb
Country of Origin	USA
Vehicle Type	Car
