# BATTERY DISCONNECT

Rotary Switch · Panel Mount · 250 Amps · 12V · 2 Post · Aluminum On / Off Panel · Black

PART NUMBER
**QRP55-050**

## OVERVIEW

QuickCar Rotary Battery Disconnect Switches provide a fast, positive way to isolate battery power for enhanced safety, emergency shutdown, vehicle service, and storage. The easy-to-operate rotary design allows electrical power to be disconnected with a deliberate turn of the handle, giving drivers, crew members, and safety personnel a clearly identifiable means of shutting down the vehicle's electrical system when needed. In addition to meeting the battery disconnect requirements of many racing sanctioning bodies, a master disconnect helps reduce electrical hazards during maintenance and provides a convenient way to isolate the battery when the vehicle is not in use.

Designed for racing, performance, and competition electrical systems, QuickCar Rotary Battery Disconnect Switches provide a simple, dependable point of control between the battery and the vehicle's electrical system.

## SPECIFICATIONS

| | |
|---|---|
| Color | **Black** |
| Style | **Rotary Switch** |
| Amps | **250 Amps** |
| Volts | **12V** |
| Material | **Aluminum** |
| Location | **Panel Mount** |
| Sold As | **Kit** |

## SHIPPING & PACKAGING

| | |
|---|---|
| Package | **5.6 × 5.45 × 5.25 in** |
| Ship Weight | **1.14 lb** |
| Country of Origin | **USA** |
| Vehicle Type | **Car** |
