TIRE MANAGEMENT KIT

Case / Durometer / Stagger Tape / Tread Depth Gauge

PART NUMBER
QRP56-105

OVERVIEW

Tire work needs three separate measurements, and three loose tools scattered across a pit cart is how one of them goes missing. This kit keeps the set together and ready. It combines the 56-155 deluxe durometer, the 56-104 tread depth gauge, and the 56-110 tire tape in a foam-lined plastic storage case.
