RIDE HEIGHT GAUGE

3-1/2 to 6 in Height Range · Aluminum · Red Paint

PART NUMBER
QRP56-108

OVERVIEW

Ride height is checked more often than almost anything else on the car, and crawling under it with a tape measure each time is slow and inconsistent. This gauge makes it a one-hand operation. Pocket sized, it slides under the frame and pops out an etched stem at the push of a button, measuring ride heights from 3-1/2 Inch to 6 Inch

SPECIFICATIONS

Color	**Red**
Sold As	**Each**
