CONTROL ARM SHIMS

Upper · 6 in Center Spacing · 1/16-1/2 in · Aluminum

PART NUMBER
QRP56-124

OVERVIEW

Camber and caster changes on an upper A-arm come down to shim thickness, and a slotted shim lets that change happen without pulling the bolts all the way out. QuickCar aluminum A-arm shims are slotted on 6 Inch centers and include installation tabs, so a setup change takes minutes rather than an afternoon. This kit includes one of each thickness, 1/16 Inch, 1/8 Inch, 1/4 Inch, and 1/2 Inch, so the range of adjustment is on hand at the track.

Individual thicknesses are also sold separately.

SPECIFICATIONS

Material	**Aluminum**
Location	**Upper**
Sold As	**Kit**

SHIPPING & PACKAGING

Package	**11.05 × 8 × 0.6 in**
Ship Weight	**0.64 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
