CASTER / CAMBER GAUGE ADAPTER

Magnetic · Bolt Included · Aluminum · Black Powder Coat

PART NUMBER
QRP56-837

OVERVIEW

QuickCar Caster/Camber Gauge Adapters provide the connection needed to securely position a compatible caster/camber gauge for accurate front-end alignment measurements. Designed to interface the gauge with the vehicle's spindle or hub arrangement, the adapter creates a stable mounting point so caster and camber settings can be checked during chassis setup and suspension adjustments. Available adapter configurations accommodate different spindle and hub designs, allowing the same gauge system to be used across a variety of racing applications.

Ideal for initial chassis setup, trackside adjustments, and routine alignment checks, QuickCar Caster/Camber Gauge Adapters make it easier to properly position the measuring equipment and verify critical front suspension geometry.

SPECIFICATIONS

Sold As	**Each**

SHIPPING & PACKAGING

Package	**6.1 × 2.9 × 2.2 in**
Ship Weight	**0.36 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
