IGNITIONS AND ELECTRICAL › WIRING COMPONENTS › ELECTRICAL WIRE

WIRE

16 Gauge · 10 ft Roll · 2 Conductor · Plastic Insulation · Copper · Clear

PART NUMBER
QRP57-200-10

OVERVIEW

Trigger signal wire running alongside ignition leads picks up interference, and interference at the distributor shows up as a misfire nobody can trace. Shielded wire prevents the problem instead of chasing it. A shielded, twisted pair of purple and green 16 gauge conductors with a drain wire to eliminate electromagnetic interference from the trigger lead.

Sold in pre-cut 10 Foot lengths.
