IGNITIONS AND ELECTRICAL › WIRING COMPONENTS › ELECTRICAL WIRE

WIRE

14 Gauge · 10 ft Roll · Silicone Insulation · Copper · Red

PART NUMBER
QRP57-2011

OVERVIEW

QuickCar Race Wire is used by racing teams and chassis builders because it behaves better than parts-store cable in a hot, vibrating engine bay. Very fine-stranded rope-lay copper keeps it flexible enough to route cleanly, and the insulation withstands extreme temperatures without going brittle. 14 gauge, red, supplied in 10 Foot lengths.
