BATTERY TERMINAL

8 Gauge · 5/16 in Eyelet · Heat Shrink Included · Copper · Tin Plated

PART NUMBER
QRP57-571

OVERVIEW

A battery cable is only as good as the terminal on the end of it, and a crimp that corrodes will cost voltage everywhere downstream. QuickCar ring terminals are heavy-duty tin-plated copper and come complete with heat shrink, so the joint is sealed against moisture as soon as it is made. 5/16 Inch eyelet on an 8 gauge barrel, sold in pairs.

SPECIFICATIONS
