RING TERMINAL

6 Guage Wire · 3/8 in Hole · Heat Shrink Included · Copper · Tin Plated

PART NUMBER
QRP57-582

OVERVIEW

QuickCar Ring Terminals provide a secure, dependable way to terminate electrical wiring at batteries, switches, distribution blocks, grounds, relays, and other stud-mounted connection points. The ring-style design surrounds the mounting stud or fastener, helping maintain a solid connection even in vehicles exposed to the vibration and demanding conditions common in racing and performance applications. Tin-plated construction helps resist corrosion while promoting reliable electrical conductivity, and heat-shrink protection helps seal and reinforce the connection where the terminal meets the wire.

Ideal for custom wiring, electrical system upgrades, repairs, and race car fabrication, QuickCar Ring Terminals help create clean, professional wiring installations with connections built for long-term reliability.

SPECIFICATIONS

Heat Shrink Included	Yes
Ring Size	3/8 Inch
Terminal Style	Ring
Material	Copper
Finish	Tin Plated
Sold As	Pair

SHIPPING & PACKAGING

Package	4.5 × 3.5 × 0.5 in
Ship Weight	0.05 lb
Country of Origin	USA
Vehicle Type	Car
