BATTERY TERMINAL

Top Post · Solder On · Brass · Nickel Plated

PART NUMBER
QRP57-640

OVERVIEW

QuickCar Top Post Battery Terminals provide a secure, high-conductivity connection between the battery and the vehicle's primary power and ground cables. Designed to attach directly to top-post batteries, the terminals create a solid connection point for transferring the high electrical current required by starting, ignition, charging, and other vehicle electrical systems. Heavy-duty conductive construction helps minimize resistance at this critical connection while providing the durability needed for racing and performance environments.

Designed for building, repairing, or improving custom battery cable systems, QuickCar Top Post Battery Terminals provide a dependable foundation for clean, reliable battery connections and consistent electrical power delivery.

SPECIFICATIONS

Terminal Style	**Battery**
Material	**Brass**
Finish	**Nickel Plated**
Sold As	**Pair**

SHIPPING & PACKAGING

Package	**4.5 × 3.45 × 0.7 in**
Ship Weight	**0.26 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
