IGNITIONS AND ELECTRICAL › CHARGING SYSTEMS › BATTERY TERMINALS AND COMPONENTS

REMOTE BATTERY TERMINAL

1.25 in Diameter Hole · 12V to 16V · Rubber Cap · Red

PART NUMBER
QRP57-701

OVERVIEW

A charging post gives crews access to the battery without pulling bodywork or reaching past hot parts, which matters when the car has to be charged between heats. Insulated covers keep the terminals from making accidental contact with anything under the panel. The red post is the positive connection.

Sold individually.
