REMOTE BATTERY TERMINAL

1.25 in Diameter Hole · 3/8-16 in Stud · 12V · Bent Bracket · Rubber Cap · Black / Red

PART NUMBER
QRP57-719

OVERVIEW

A charging post gives crews access to the battery without pulling bodywork or reaching past hot parts, which matters when the car has to be charged between heats. Insulated covers keep the terminals from making accidental contact with anything under the panel. This version pairs QuickCar's brass charging posts with a 90 Degree bent black anodized aluminum bracket for firewall or trunk mounting, CNC precut for the posts and drilled with #10 mounting holes.

SPECIFICATIONS

Color	**Black / Red**
Terminal Style	**Remote Battery**
Volts	**12V**
Material	**Brass**
Sold As	**Each**

SHIPPING & PACKAGING

Package	**11.05 × 8 × 2 in**
Ship Weight	**1.02 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
