IGNITIONS AND ELECTRICAL › WIRING COMPONENTS › WIRING CONNECTORS AND TERMINALS

SPADE TERMINAL

Heat Shrink · 16-14 Gauge Wire · Female · Copper

PART NUMBER
QRP57-942

OVERVIEW

QuickCar Spade Terminals provide a clean, reliable way to create serviceable electrical connections in custom racing and performance wiring systems. The quick-disconnect design allows connected components to be easily removed, replaced, or serviced without cutting wires or disturbing the rest of the harness, making them well suited for switches, relays, gauges, lighting, accessories, and other frequently serviced electrical components. Tin-plated construction helps resist corrosion while maintaining dependable electrical conductivity, and heat-shrink protection helps seal and reinforce the connection between the terminal and wire.

Ideal for new wiring installations, electrical upgrades, and repairs, QuickCar Spade Terminals help create organized, professional wiring systems that are easier to assemble, troubleshoot, and maintain.

SPECIFICATIONS

Gender	**Female**
Heat Shrink Included	**Yes**
Terminal Style	**Spade**
Gauge	**16-14 Gauge**
Material	**Copper**
Finish	**Tin Plated**
Sold As	**Pair**

SHIPPING & PACKAGING

Package	**3.2 × 2.05 × 0.65 in**
Ship Weight	**0.04 lb**
Country of Origin	**USA**
Vehicle Type	**Car**

ALSO AVAILABLE IN THIS FAMILY (4 PART NUMBERS)
