BRAKES › BRAKE COOLING KITS AND COMPONENTS › BRAKE COOLING DUCTS

AIR OR BRAKE DUCT

Bumper Mount · Single 3 in Tube · Molded Plastic · Black

PART NUMBER
QRP60-008

OVERVIEW

QuickCar NACA Air Ducts provide a streamlined way to capture outside airflow and route it to areas of a racing or performance vehicle that benefit from additional ventilation or cooling. Designed for connection to duct hose, the inlet allows incoming air to be directed toward the driver, brakes, rear-end cooler, or other components where increased airflow is needed. The low-profile design integrates cleanly into suitable body panels and flat mounting surfaces, providing a dedicated source of cooling air without requiring a large protruding scoop.

Ideal for custom cooling and ventilation systems, QuickCar NACA Air Ducts give builders the flexibility to direct fresh airflow where it can provide the greatest benefit.

SPECIFICATIONS

Color	**Black**
Sold As	**Each**

SHIPPING & PACKAGING

Package	**9.75 × 5.75 × 5 in**
Ship Weight	**0.27 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
