LED LIGHT BULB

White · Quickcar Water Pressure Gauges

PART NUMBER
QRP61-697

OVERVIEW

Gauge backlighting that is dim or the wrong color costs a driver a half second every time they check a reading. These LED bulbs drop into the backlighting of Legend QuickCar gauges, drawing less power than the originals while lighting the face more brightly, and they suit 16 Volt systems. This bulb is the replacement for the QuickCar Water Pressure Gauge, part 611-6008.

SPECIFICATIONS

Application	**Water Pressure**
Color	**White**
Sold As	**Pair**
