TEMPERATURE SWITCH

Electric · 230 Degrees On · 1/2 in NPT Male

PART NUMBER
QRP61-740

OVERVIEW

A gauge only helps if someone is looking at it, and in traffic nobody is. A warning light switch takes the watching out of the driver's hands entirely. This water temperature switch triggers a warning light when coolant reaches 235 Degree F, with 1/2 Inch NPT threads.

Part 61-748 is the same switch with 3/8 Inch NPT.
