TACHOMETER

QuickTach · 15000 RPM · Digital · 3 in Wide x 3 in Tall · Recall · 9V Battery · Waterproof · Aluminum · Black / White

PART NUMBER
QRP611-099

OVERVIEW

QuickCar LCD tachometers give a driver an exact engine speed instead of a needle position, in a compact display that fits where a round gauge will not. Peak RPM recall holds the highest reading from the session, so the number is still there after the car comes in. A 1-3/4 Inch wide by 3/4 Inch high flag face display that holds peak RPM for up to 15 minutes after shutdown, with a reset button to clear the recall during an event.
