TACHOMETER

QuickTach 2 · 15000 RPM · Digital · 3 in Wide x 3 in Tall · Recall · Bracket / Harness Included · Waterproof · Aluminum · Black

PART NUMBER
QRP611-102

OVERVIEW

One peak RPM number tells you the engine over-revved; four tells you whether it is happening in the same corner every lap. The QuickTach 2 records enough to find the pattern. Made in the USA, it recalls the four highest and four lowest RPM readings from the previous session on a bright white LED readout, in a compact 3 Inch by 3 Inch housing.
