GAUGES AND ACCESSORIES › INDIVIDUAL GAUGES › DIGITAL GAUGES

DATA LOGGER

RPM Multi Recall · Programmable · 4 in Wide x 2-1/2 in High Monitor · Wiring Harness

PART NUMBER
QRP611-106

OVERVIEW

Peak RPM alone does not show where an engine is being hurt. This unit records ten highs and ten lows and graphs them, turning a session into data the crew can actually work from. A 4 Inch wide by 2-1/2 Inch high backlit digital display with a programmable RPM warning and shift light, showing the ten highest and ten lowest readings once the engine is shut off.
