TACHOMETER

10000 RPM · Analog · 3-3/8 in Diameter · Remote Recall Switch · Silver Face

PART NUMBER
QRP611-6002

OVERVIEW

An analog tachometer with no microprocessor is legal everywhere you race. QuickCar analog tachs are made in the USA, compliant with all sanctioning bodies, and recall the highest RPM from the previous session so the number is still there after the car comes in.

A 3-3/8 Inch diameter tachometer in an aluminum case for in-dash mounting, reading 0-10,000 RPM on a silver dial with a bright orange pointer, bright white LED backlighting and a memory recall switch.
