FUEL PRESSURE GAUGE

Extreme · 0-15 psi · Mechanical · Analog · Full Sweep · 2-5/8 in Diameter · White Face · Built-in Warning Light

PART NUMBER
QRP611-7000

OVERVIEW

A needle creeping toward trouble is easy to miss on a busy track; a gauge face that changes color is not. QuickCar Extreme Series gauges have an internal warning light system that changes the color of the entire 2-5/8 Inch face when a reading goes out of range.

This mechanical gauge reads fuel pressure on a 0-15 PSI range. It has a white face, bright red pointer and LED lighting, runs on 12-volt or 16-volt power and has a male 1/8 Inch NPT connection on the back. The pressure line kit and the 4 PSI fuel pressure switch needed for the warning function are sold separately, and QuickCar recommends its fuel pressure isolator for all mechanical fuel pressure gauges.

Note: Pressure Line Kit and 4 PSI fuel pressure switch (required for warning function) are not included and are both sold separately. QuickCar highly recommends it's fuel pressure isolator for all mechanical fuel pressure gauges.

SPECIFICATIONS

Gender	**Male**
Application	**Fuel Pressure**
Diameter	**2-5/8 Inch**
PSI	**0-15 PSI**
Style	**Extreme / Mechanical / Full Sweep**
Face Color	**White**
Digital Or Analog	**Analog**
Sold As	**Each**

SHIPPING & PACKAGING

Package	**5.7 × 4.55 × 3.95 in**
Ship Weight	**0.6 lb**
