WATER TEMPERATURE GAUGE

Extreme · 100-280 Degree F · Mechanical · Analog · Full Sweep · 2-5/8 in Diameter · White Face · Built-in Warning Light

PART NUMBER
QRP611-7006

OVERVIEW

A needle creeping toward trouble is easy to miss on a busy track; a gauge face that changes color is not. QuickCar Extreme Series gauges have an internal warning light system that changes the color of the entire 2-5/8 Inch face when a reading goes out of range.

This mechanical gauge reads water temperature on a 100-280 Degree F range through a 6 Foot capillary tube, with a white face, bright red pointer and LED lighting on 12-volt or 16-volt power. A brass male 1/2 Inch NPT adapter is included; the 235 Degree F water temperature switch needed for the warning function is sold separately.

Note: 235 Degree F water temp. switch (required for warning function) is not included and is sold separately.

SPECIFICATIONS
