WATER PRESSURE GAUGE

0-100 psi · Mechanical · Analog · Full Sweep · 2-5/8 in Diameter · White Face · Built-in Warning Light

PART NUMBER
QRP611-7008

OVERVIEW

A needle creeping toward trouble is easy to miss on a busy track; a gauge face that changes color is not. QuickCar Extreme Series gauges have an internal warning light system that changes the color of the entire 2-5/8 Inch face when a reading goes out of range.

This mechanical gauge reads water pressure on a 0-100 PSI range. It has a white face, bright red pointer and LED lighting, runs on 12-volt or 16-volt power and has a male 1/8 Inch NPT connection on the back. The pressure line kit and the 4 PSI pressure switch needed for the warning function are sold separately.

Note: Pressure Line Kit and 4 PSI oil pressure switch (required for warning function) are not included and are both sold separately.

SPECIFICATIONS

Gender	**Male**
Application	**Water Pressure**
Diameter	**2-5/8 Inch**
PSI	**0-100 PSI**
Style	**Mechanical / Full Sweep**
Face Color	**White**
