OIL TEMPERATURE GAUGE

Extreme · 100-320 Degree F · Mechanical · Analog · Full Sweep · 2-5/8 in Diameter · White Face · Built-in Warning Light

PART NUMBER
QRP611-7009

OVERVIEW

A needle creeping toward trouble is easy to miss on a busy track; a gauge face that changes color is not. QuickCar Extreme Series gauges have an internal warning light system that changes the color of the entire 2-5/8 Inch face when a reading goes out of range.

This mechanical gauge reads oil temperature on a 100-320 Degree F range through a 6 Foot capillary tube, with a white face, bright red pointer and LED lighting on 12-volt or 16-volt power. A brass 1/2 Inch NPT adapter is included; the 280 Degree F oil temperature switch needed for the warning function is sold separately.

Note: 280 Degree F oil temp. switch (required for warning function) is not included and is sold separately.

SPECIFICATIONS

Application	**Oil Temperature**
Diameter	**2-5/8 Inch**
