FITTING

Adapter · Straight · 5/8-18 in Female to 1/2 in NPT Male · Brass

PART NUMBER
QRP611-900

OVERVIEW

QuickCar Temperature Gauge Adapters provide the proper connection point for installing mechanical or electronic temperature gauges when the gauge probe or sending unit does not directly match the engine's available threaded port. By adapting the gauge connection to the appropriate engine port, these fittings help position the temperature-sensing component securely for accurate monitoring of critical engine conditions. Available configurations accommodate different gauge types, thread sizes, and installation requirements, including applications requiring additional clearance for the temperature probe.

Designed for water and oil temperature monitoring systems, QuickCar Temperature Gauge Adapters simplify gauge installation and provide a clean, purpose-built connection between the engine and temperature instrumentation.

SPECIFICATIONS

Thread Size	**1/2 Inch NPT**
Material	**Brass**
Shape	**Straight**
Sold As	**Set of 5**

SHIPPING & PACKAGING

Package	**4.55 × 3.5 × 0.85 in**
Ship Weight	**0.08 lb**
Country of Origin	**USA**
Vehicle Type	**Car**

ALSO AVAILABLE IN THIS FAMILY (2 PART NUMBERS)
