TACHOMETER

Redline Multi-Recall · 10000 RPM · Electric · Analog · 3 in Diameter · Dash Mount · Shift Light · Memory · White Face

PART NUMBER
QRP63-001

OVERVIEW

One peak RPM reading tells you the engine pulled hard somewhere; four straightaway highs and four corner lows tell you whether the gearing is right. The QuickCar Redline Multi-Recall tachometer records both.

A 3-1/8 Inch diameter tachometer with stepper motor accuracy, a programmable shift light and a bright LED-lit 0-10,000 RPM range, in the white dial face version.
