GAUGES AND ACCESSORIES › GAUGE COMPONENTS › FIREWALL JUNCTION

FIREWALL JUNCTION

2 Hole · 1/8 in NPT · Aluminum · Black Anodized

PART NUMBER
QRP63-120

OVERVIEW

Electronic gauges read through pressure transducers, and the professional way to plumb them is a junction block on the engine side of the firewall. That keeps fuel and oil out of the driver compartment while the transducers stay accessible for service. A two hole junction with female 1/8 Inch NPT ports, machined from billet aluminum and black anodized.

SPECIFICATIONS

Gender	**Female**
Thread Size	**1/8 Inch NPT**
Material	**Aluminum**
Finish	**Black Anodized**
Location	**Firewall**
Sold As	**Each**
