CARBURETOR COVER

O-Ring Seal · Aluminum · Natural · 5-1/8 in Flange

PART NUMBER
QRP64-146

OVERVIEW

QuickCar Carburetor Hat helps protect the engine from dirt, debris, and other contaminants when the air cleaner has been removed during maintenance, setup, transportation, or storage. Designed to fit carburetors with a 5-1/8-inch air cleaner flange, the aluminum cover provides a durable barrier over the exposed carburetor opening, helping prevent unwanted material from entering the induction system while the engine is not in operation. An O-ring at the base provides a secure seal against the carburetor flange, while the thick aluminum construction withstands repeated use around the shop, pits, and race trailer.

QuickCar's Carburetor Hat provides a simple way to keep an exposed carburetor and engine protected whenever the air cleaner is off.

SPECIFICATIONS

Material	**Aluminum**
Sold As	**Each**

SHIPPING & PACKAGING

Package	**8.05 × 7.45 × 2.7 in**
Ship Weight	**1.54 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
